

Soundproof Cabinet

A reduction of the noise level of 3 dB(A) can seem like the noise level has been halved, which means that the APV reduction of 6 dB(A) provides for a greatly improved working environment for all plant operations staff.

The soundproof cabinet reduces the noise level to a point at which hearing protection is no longer required.

The new soundproof cabinet has been designed to reduce noise emissions from the higher capacity homogenisers. In the case of the smaller homogenisers, existing noise levels are not significant.

For Homogenisers	Length (in./mm)	Width (in./mm)	Height (in./mm)	Dimensions Packed in a crate LxWxH (cm)	Cubic Measure m ³
37 kW	1770	1300	1925	185 x 165 x 205	6,257
90 kW	2850	1395	1750	280 x 175 x 205	10,045
185 kW	3480	2150	1710	420 x 240 x 218	21,974
315 kW	3990	2150	1830	420 x 240 x 218	21,974
